DO THE JOB RIGHT.

Part #13902

CYLINDRICAL WIRE BRUSH

INSTRUCTIONS

Use the Cylindrical Wire Brush in your corded or cordless drill to remove rust, paint and other coatings. Designed to expedite the rust and paint removal process on large flat or contoured surfaces. Includes 5 Cylindrical Wire Brushes.

WARNINGS

- DO NOT Operate over 3,000 RPM.
- Do not use with loose baggy clothing.
- Do not use with long hair.
- Wear eye, face, and body protection while in use.
- Wear a NIOSH approved respirator to avoid the possibility of breathing in particles of dust, rust, or the coating being removed.

OPERATION

The Cylindrical Wire Brush is designed to be used in a drill. The drill will require a minimum 3/8" chuck. Simply open the chuck of the drill and retighten the chuck on the shank of the wire brush. Place the brush onto the work piece and then start the drill to avoid the drill jumping when touching down on the work piece.
