### **SECTION 06: Accidental release measures**

Leak/spill...... Ventilate. Eliminate all sources of ignition. Contain the spill. Avoid all personal contact. Spilled material and water rinses are classified as chemical waste, and must be disposed of in accordance with current local, provincial, state, and federal regulations. Evacuate all non-essential personnel. Prevent runoff into drains, sewers, and other waterways. Absorb with earth, sand, or another dry inert material. Shovel into suitable unsealed containers, transport to well-ventilated area (outside) and treat with neutralizing solution: mixture of water (80%) with non-ionic surfactant Tergitol TMN-10 (20%); or water (90%), concentrated ammonia (3-8%) and detergent (2%).

#### SECTION 07: Handling and storage

| Handling procedures | Avoid all skin contact and ventilate adequately, otherwise wear an appropriate breathing apparatus. Always adopt precautionary measures against build-up of static which may arise from appliances, handling and the containers in which product is packed. Avoid breathing vapours or mist. Ground handling equipment. Handle and open container with care. Employees should wash hands and face before eating or drinking. Keep away from heat, sparks, and open flame. |
|---------------------|---|
| Storage needs       | Keep away from heat, sparks, and open flames. Keep container closed when not in use.<br>Store away from oxidizing and reducing materials. Store away from sunlight.   |

# **SECTION 02: Hazards identification**

| Signal Word              | DANGER.  |
|--------------------------|--|
| Hazard Classification    |  |
| Hazard Description       | H242 Heating may cause a fire. H272 May intensify fire; oxidizer.                        |
| Precautionary Statements |  |
|                          | Keep away from clothing and other combustible materials. P234 Keep only in original      |
|                          | packaging. P235 Keep cool. P240 Ground and bond container and receiving equipment.       |
|                          | P280 Wear protective gloves and eye protection.  |
| Response                 | P370 + P378 In case of fire - use dry chemical powder, CO2 or 6% foam.                   |
| Storage                  | P403 Store in a well ventilated area. P410 Protect from sunlight. P411 Store at          |
| -                        | temperatures not exceeding 60°C / 140°F. P420 Store separately.                          |
| Disposal                 | P501 Dispose all unused, waste or empty containers in accordance with local regulations. |

| SECTION 03: COMPOSITION/INFORMATION ON INGREDIENTS |          |       |
|--|----------|-------|
| HAZARDOUS INGREDIENTS                              | CAS #    | WT. % |
| BENZOYL PEROXIDE                                   | 94-36-0  | 50-60 |
| ZINC STEARATE                                      | 557-05-1 | 5-10  |

### **SECTION 04: First aid measures**

| Eye contact            | In case of contact, immediately flush eyes, keeping eyelids open, with plenty of water for at least 15 minutes. Obtain medical attention.   |
|------------------------|---|
| Skin contact           | Remove all contaminated clothing and immediately wash the exposed areas with copious amounts of water for a minimum of 30 minutes or up to 60 minutes for critical body areas. If irritation persists, seek medical attention.  |
| Inhalation             | If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen, obtain medical attention.   |
| Ingestion              | Do not induce vomiting. If ingestion is suspected, contact physician or poison control center immediately. If spontaneous vomiting occurs have victim lean forward with head down to prevent aspiration of fluid into the lungs. Never give anything by mouth to an unconscious person. |
| Additional information | Treat victims symptomatically. The main hazard from ingestion is aspiration of the liquid into the lungs. In the event of an incident involving this product ensure that medical authorities are provided a copy of this safety data sheet.   |

### **SECTION 05: Fire fighting measures**

| Extinguishing media<br>Hazardous combustion products | "Alcohol" foam, CO2, dry chemical.<br>Oxides of carbon (CO, CO2). Benzoic acid. Hydrocarbons.   |
|--|---|
| Special fire fighting procedures                     | Firefighter should be equipped with self-contained breathing apparatus and full protective clothing to protect against potentially toxic and irritating fumes. Fight fire like a fuel oil fire. |
| Unusual fire / explosion hazards                     | Fire hazard increases when material becomes dry. Vapours may be heavier than air. May travel long distances along the ground before igniting and flashing back to vapour source.                |

#### **SECTION 06: Accidental release measures**

Leak/spill...... Ventilate. Eliminate all sources of ignition. Isolate area and keep unauthorized people away. Do not walk through spilled material. Contain the spill. Prevent runoff into drains, sewers, and other waterways. Absorb with earth, sand, or another dry inert material. Spilled material and water rinses are classified as chemical waste, and must be disposed of in accordance with current local, provincial, state, and federal regulations.

### **SECTION 07: Handling and storage**

| Handling procedures | Keep away from heat, sparks, and open flame. Do not breathe vapours, mist or dust. Avoid<br>all skin contact and ventilate adequately, otherwise wear an appropriate breathing<br>apparatus. Handle in accordance with good industrial hygiene and safety practices. Always<br>adopt precautionary measures against build-up of static which may arise from appliances,<br>handling and the containers in which product is packed. Ground handling equipment.<br>Handle and open container with care. Employees should wash hands and face before<br>eating or drinking. |
|---------------------|--|
| Storage needs       | Keep away from heat, sparks, and open flames. Keep container closed when not in use.<br>Store in a cool dry place away from organic materials.   |
