

SAFETY DATA SHEET

Rust Encapsulator Matte Black Finish

Part No. 16065ZP, 16070ZP, 16063ZP

February 23, 2016 Revision 6 Page 1 of 8

SECTION 1 - IDENTIFICATION

Product Identifier

Product Number(s) 16065ZP,16063ZP,16070ZP

 Product Name
 Rust Encapsulator Matte Finish Black - 16065ZP - Quart

 Rust Encapsulator Matte Finish Black - 16063Z - Pint - INACTIVE

Rust Encapsulator Matte Finish Black - 16070ZP - Gallon

Other Means of Identification Non Recommended Use and Restrictions on Use

Recommended Use Rust preventative
Restrictions on Use None Identified

24 hr Emergency Phone Number

800-424-9300 (Chem-Trec)

SUPF	LIER DETAILS
Name	The Eastwood Company
Address	263 Shoemaker Road Pottstown PA 19464
Phone Number	610-323-2200

SECTION 2 - HAZARD(S) IDENTIFICATION

Hazard Classification

н	EALTH	HAZARDS		PHYSICAL HAZARDS									
Acute Tox. Oral		Mutagenicity		Unstable Explosive		Refrigerated Liq. Gas		Pyrophoric Solid					
Acute Tox. Skin		Carcinogenicity	2	Explosive		Flammable Liquid	2	Emits Flammable Gas					
Acute Tox. Inhalation		Tox. to Reproduction	2	Flammable Gas		Flammable Solid		Oxidizing Liquid					
Skin Irritation		STOT SE		Aerosol		Self-Reactive Sub.		Oxidizing Solid					
Eye Irritation	2	STOT RE	2	Oxidizing Gas		Pyrophoric Liquid		Organic Peroxide					
Resp. Sensitization		Aspiration Hazard	1	Gas Under Pressure		Self-Heating Substance		Corrosive to Metal					
Skin Sensitization				ENVIRONMENTAL HAZARDS (GHS Rev 3 Only)									
				Aquatic Acute		Aquatic Chronic		Ozone Depleting					

Signal Word

Hazard Pictograms

Danger!

Hazard Statements

Highly flammable liquid and vapour. May be fatal if swallowed and enters airways. Causes serious eye irritation. Suspected of causing cancer. May damage fertility or the unborn child. May cause damage to organs through prolonged or repeated

exposure.

Precautionary Statements

General Keep out of reach of children.

February 23, 2016 Revision 6 Page 2 of 8

SAFETY DATA SHEET

Rust Encapsulator Matte Black Finish

Do not handle until all safety precautions have been read and understood. Keep away from heat, hot surfaces, sparks, open Prevention

> flames and other ignition sources. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe fumes. Wash hands thoroughly after handling. Wear protective gloves

and eye protection.

If exposed, concerned or feel unwell: Call a doctor. IF SWALLOWED: Immediately call a POISON CENTER. Do NOT induce Response

> vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice. In case of fire: Use water, CO2, dry chemical or universal aqueous film forming foam

to extinauish.

Store in a well-ventilated place. Store locked up. Keep cool. Storage Disposal Dispose of contents/container in accordance with local regulations.

Hazards Not Otherwise Classified None identified. **Unknown Acute Toxicity** 36 % by wt

SECTION 3 - COMPOSITION / INFORMATION ON INGREDIENTS

ID	INGREDIENT	CAS NUMBER	% WT RANGE*
1	Tert-Butyl Acetate	0000540-88-5	15 - 40
2	V M & P Naphtha	0064742-89-8	7 - 13
3	Acetone	0000067-64-1	7 - 13
4	Methyl Acetate	0000079-20-9	5 - 10
5	Carbon Black	0001333-86-4	1 - 5
6	Stoddard Solvent	0008052-41-3	1 - 5
7	Toluene	0000108-88-3	1 - 5
8	Xylene	0001330-20-7	0.5 - 1.5

^{*} Exact percentages of composition withheld as trade secret

SECTION 4 - FIRST AID MEASURES

Description of First-Aid Measures

General If exposed or concerned seek medical advice/attention.

Eye Contact Immediately flush with clear water for at least 15 minutes, including under the eyelids. Consult a doctor.

Skin Contact Remove with soap and water, rinsing and repeating for 15 minutes. Use skin cream to counter any resulting dryness.

Consult a physician if irritation continues. If large skin area is affected, remove contaminated clothing.

Ingestion Do not induce vomiting! Immediately have the victim drink plenty of water. Do not give milk or digestible oils. Keep airways

free. Contact a physician. Never give anything by mouth if victim is rapidly losing consciousness, unconscious, or convulsing.

Inhalation Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention

if symptoms persist or if unconscious.

First-Aid Responder Protection Wear adequate personal protective equipment based on the nature and severity of the emergency.

Most Important Symptoms and Effects, Both Acute and Delayed

Eye Contact Liquid contact may cause pain along with moderate eye irritation.

Skin Contact Prolonged or repeated exposure may cause skin irritation. Repeated contact may cause drying or flaking of skin. May cause

more severe response if confined to skin.

Ingestion May cause irritation to membranes of the mouth, throat, and gastrointestinal tract resulting in vomiting and/or cramps.

Aspiration of vomit into the lungs may cause inflammation, and possible chemical pneumonitis, bronchopneumonia, or

pulmonary oedema.

Inhalation Prolonged or repeated overexposure is anesthetic. May cause irritation of the respiratory tract, or acute nervous system

depression characterized by headache, dizziness, staggering gait, confusion or death. Irritation of the mucous membranes,

coughing, and dyspnea are also possible.

Indication of Immediate Medical Attention and Special Treatment

SAFETY DATA SHEET

Page 3 of 8

Notes to Physician Stoddard Solvent sensitizes the heart to the effects of sympathomimetic amines. Epinephrine and other sympathomimetic

drugs may initiate cardiac arrhythmias in individuals exposed. Use of sympathomimetic drugs should be avoided. If ingested, the material presents a significant aspiration and chemical pneumonitis hazard. Induction of emesis is not recommended. Consider activated charcoal and/or gastric lavage. If patient is obtunded, protect the airway by cuffed endotracheal

intubation or by placement of the body in a Trendelenburg and left later lateral decubitus position.

Specific Treatments/Antidotes No information available.

Immediate Medical Attention No information available.

SECTION 5 - FIRE-FIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media Water, CO2, dry chemical, or universal aqueous film forming foam

Unsuitable Extinguishing Media Water jet

Specific Hazards Arising from the Chemical or Mixture

Decomposition ProductsOxides of carbon (CO, CO2), smoke, and/or vapors

Hazards from the Product CONTENTS HIGHLY FLAMMABLE. In a fire or if heated, a pressure increase will occur which may result in the container

bursting. Vapors heavier than air may spread along the ground and travel to an ignition source.

Advice for Firefighters

Protective ActionsUse water spray to cool fire exposed containers as contents may rupture violently from heat developed pressure.

Protective Equipment As with any fire wear SCBA pressure-demand, MSHA/NIOSH approved, and full protective gear.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

For Non-Emergency Personnel No action should be taken by non-emergency personnel without suitable training. Evacuate surrounding areas. Keep

unnecessary and unprotected personnel from entering. Do not touch or walk through spill. Remove ignition sources and

provide adequate ventilation only if it is safe to do so.

For Emergency RespondersUse personal protection as recommended in Section 8. Observe precautions provided for non-emergency personnel.

Environmental Precautions

PrecautionsKeep out of drains, sewers, ditches, and waterways. Minimize use of water to prevent environmental contamination.

Methods and Materials for Containment and Cleaning Up

Containment Procedures Released content may be contained with oil/solvent absorbent pads, booms, and/or absorbents.

Cleanup ProceduresAvoid breathing vapors and ventilate area well. Remove sources of ignition and use non-sparking equipment. Soak up

material with inert absorbent and place in safety containers for proper disposal.

Other InformationThe North American Emergency Response Guidebook or similar resources providing emergency response information for

dealing with accidents, spills, leaks, and/or fires involving dangerous goods.

Prohibited MaterialsCombustible absorbent material such as sawdust, use of equipment that may cause sparking.

SECTION 7 - HANDLING AND STORAGE

Precautions for Safe Handling

General Handling Precautions KEEP OUT OF THE REACH OF CHILDREN. When using in spray application, conformance to NFPA 33 Spray Applications using

Flammable and Combustible Materials is recommended.

Hygiene RecommendationsDo not eat, drink or smoke when using this product. Wash hands thoroughly after use. Remove contaminated clothing and

protective equipment before entering eating or smoking areas.

Conditions for Safe Storage Including Any Incompatibilities

SAFETY DATA SHEET

Rust Encapsulator Matte Black Finish

February 23, 2016 Revision 6 Page 4 of 8

Storage Requirements

Storage of flammable materials should conform to NFPA 30 Flammable and Combustible Liquid. Keep containers tightly closed and stored in a well-ventilated place. Keep away from sources of ignition.

Empty containers retain residue (liquid and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition; they may explode and cause injury or death. Do not attempt to clean since residue is difficult to remove. Empty drums should be completely drained, properly bunged, and promptly returned to a drum reconditioner. All other containers should be disposed of in an environmentally safe manner and in accordance with governmental regulations.

Incompatibilities Segregate storage away from materials indicated in Section 10

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

Control Parameters

8	Methylhippuric acids in urine	End of shift	1.5 g/g creatinine	_

Other Control Parameters Not Available

Appropriate Engineering Control

Engineering Measures

Use only with adequate ventilation. General ventilation (typically 10 air changes per hour) should be used. Ventilation rates

should be matched to conditions. Local exhaust ventilation or an enclosed handling system may be necessary to control air

contamination below that of the lowest OEL from the table above.

Individual Protection Measures

Hygiene ConsiderationsAvoid breathing vapors and contact with the skin and eyes. Always replace overcap when not in use. Keep out the reach of

children. Wash hands after use.

Thermal Protection This product does not present a thermal hazard.

Respiratory Protection An approved respirator with organic vapor cartridge may be permissible under certain circumstances where airborne

concentrations are expected to exceed occupational exposure limits. If respirators are needed, compliance with OSHA

standard 29 CFR 1910.134 is necessary.

Skin Protection For brief contact, no precautions other than clean body-covering clothing should be needed. When prolonged or repeated

contact could occur, use protective clothing impervious to the ingredients listed in Section 2.

Eye/Face Protection Safety glasses with side shields are recommended as a minimum for any type of industrial chemical handling. Where eye

contact with this material could occur, chemical splash proof goggles are recommended.

Other Protective Equipment Safety showers and eye-wash stations should be available in the workplace near where the material will be used.

Routes of Exposure Skin contact, skin absorption, eye contact, inhalation, ingestion

Information on Physical, Chemical and Toxicological Effects

Symptoms of Exposure Abdominal Cramps, Central Nervous System Depression, Chemical Pneumonitis, Chest Tightness, Cough, Dermatitis,

Dizziness, Drowsiness, Excitation, Optic Nerve Atrophy, Skin Irritation, Staggering Gait, Throat Irritation, Upper Respiratory

System Irritation, Vomiting

Delayed and Immediate Effects and also Chronic Effects from Short and Long-Term Exposure

Delayed EffectsNo known delayed effects.Immediate EffectsNo known immediate effects.

Chronic Effects Reports have associated repeated and prolonged occupational overexposure to solvents with irreversible brain and nervous

system damage (sometimes referred to as "Solvent or Painter's Syndrome"). Intentional misuse by concentrating and inhaling this product may be harmful or fatal. Stoddard Solvent when ingestion and subsequent aspiration into the lungs may cause pneunatocele (lung cavity) formation and chronic lung dysfunction. Reports of chronic poisoning from Toluene describe anemia, decreased blood cell count and bone marrow hypoplasia. Liver and kidney damage may occur. Exposure

may affect a developing fetus.

Medical Conditions Aggravated May aggravate personnel with pre-existing disorders associated with any of the Target Organs.

Target OrgansBladder, Blood, Central Nervous System, Eyes, Gastrointestinal Tract, Kidneys, Liver, Respiratory System, Skin

SECTION 13 - DISPOSAL CONSIDERATIONS

<u>Waste Disposal</u> Product is suitable for burning in an enclosed, controlled burner for fuel value. Hazard characteristics and regulatory waste

stream classification can change with product use and location. Accordingly, it is the responsibility of the user to determine the proper storage, transportation, treatment, and/or disposal methodologies for spent materials and residues at the time of disposition. All waste material must be disposed of in compliance with the respective national, federal, state, and/or local

regulations.

Waste Disposal of Packaging Consult with your local landfill to determine if empty small containers can be disposed of along with regular trash pickup.

For disposal of large containers (typically 10 gallon or larger), or for containers not suitable for landfill, a licensed

reconditioner should be used.
