DO THE JOB RIGHT.

Part #13704

PROFESSIONAL WIRE TIE GUN

INSTRUCTIONS

The **Eastwood Professional Cable Tie Gun** allows quick, convenient, one-handed tightening and cutting of cable ties up to 1/4" wide. Just set the tension, grip cable tie end, pull trigger, cut and you are done. Cuts off excess cable tie cleanly with no sharp edges.

WARNINGS

- Do not use near live electrical sources or hot surfaces.
- Keep fingers away from moving parts of tool.

OPERATION

- Tension numbers from 1 to 3 are visible in the round window on the left side of the handle. Turn thumbwheel in handle toward rear of handle to increase tension on wire tie bundle, forward to lessen tension on wires.
- Create loop in wire tie by pulling end of tie through latch end as normal then insert free end of tie into end of tool jaw.
- Allow end of tool jaw to come into contact with the latch end of the wire tie.
- Pull trigger repeatedly until cable tie is tight then the tool will automatically cut off excess end.
