

DO THE JOB RIGHT.

ALUMINUM FAN SHROUD

INSTRUCTIONS

Item #20296, #20297, #20298

EASTWOOD MAXX POWER TRI-FLOW RADIATOR SHROUDS are specifically designed to fit the full line of Eastwood Tri-Flow Radiators and will readily accept Eastwood Electric fans. Featuring a perfect-fit, no-tool installation with heavy-duty, TIG welded aluminum construction, these Shrouds will provide years of rugged use.

INCLUDES

- (1) Aluminum Fan Shroud
- (4) 6mm socket head cap screws
- (4) 6mm locking nuts

IMPORTANT NOTES

FEATURES

- The Eastwood Maxx Power Tri-Flow Radiator Shrouds are designed for universal custom, high-performance installations and are not specifically intended to directly fit individual make, year and model cars and trucks. Modifications to the vehicle and/or Shrouds may be necessary. Basic to moderate metal fabrication skills are essential.

- This Shroud is designed to be used with a properly sized Eastwood Electric Fan. It may require extensive modification if used with an engine driven fan.
- The Electric Fan must be attached to the Shroud prior to the final installation of the Shroud on the Radiator however; it is advisable to first trial-fit the Shroud to the Radiator then trial-fit the entire Radiator/Shroud/Fan assembly to the car. This will reveal any interference issues between the Shroud and the vehicle and any of its underhood components.

EASTWOOD RADIATOR/SHROUD/FAN FITMENT

Tri Flow Radiator	Fan Shroud	Electric Fan
#20150 – 22"W x 19"H x 2"D	#20296	#20244 (14", 1230cfm)
#20151 – 25.5"W x 19"H x 2"D	#20297	#20243 (16", 2175cfm)
#20152 – 27.5"W x 19"H x 2"D	#20298	#20243 (16", 2175cfm)

FAN TO SHROUD

- The Eastwood Fans are attached to the Shroud with (4) 6mm socket head cap screws and locknuts requiring a 10mm socket and a 4mm hex key.
- The Fan must be oriented with the caution facing upward and the ventilation tube pointing downward (**FIG 1**).

2 Eastwood Technical Assistance: 800.544.5118 >> techelp@eastwood.com **INSTALLATION**

- The Eastwood Fan Shroud is designed as a “no-tools”, “clamp on” fit to the corresponding sized Eastwood Radiator. Note that the lower right side flange is cut out to clear the radiator outlet tube (**FIG B**) and the top right plate is clearance cut for the filler neck (**FIG C**).
- Begin by placing the Radiator upright on a firm but non-damaging surface then hook the flange of the upper plate of the Shroud over the front of the Radiator core (**FIG D & E**). **IMPORTANT NOTE:** Use extreme care not to nick, dent or damage the Radiator Core.
- Rotate the Radiator to the upside down position using extreme care not to damage the Filler Neck then pull the flange of the bottom plate up and over the Radiator Core (**FIG F**).
- Be sure both upper and lower flanges are fully and securely clamped around the Radiator Core (**FIG G**).
- The Radiator/Shroud/Fan Assembly is now ready for installation in the vehicle.
